4.5 Statement of Practice	Highly Effective	Effective	Developing	Ineffective
Teachers use a variety of data sources including screening, interim measures and progress monitoring to inform lesson planning, develop explicit teacher plans and foster student participation in their own learning process.	a) Teachers use summative and formative assessments including screening, progress monitoring, interim measures and outcome assessments to develop highly dynamic and responsive plans, based on students' strengths and needs. b) Teachers use a wide variety of relevant data sources to create robust lesson plans that account for student grouping and to determine the appropriate intensity and duration of instruction. c) Teachers provide frequent and relevant feedback to students based on the analysis of timely data, and students draw on the feedback so that they can reflect, adjust and assess their own progress.	a) Teachers utilize data sources and analyze the information provided from such sources to inform instructional decision-making, including student grouping and instructional strategies. b) Teachers use targeted plans to adjust student grouping and instructional strategies based on data for most students. c) Teachers provide frequent feedback to students based on the analysis of timely data and provide students with their next steps.	a) Teachers utilize data sources to inform instructional decision-making. b) Teachers have action plans for adjusting student groupings, but the plans lack specificity and do not provide targeted intervention for students requiring additional support. c) Teachers provide data-based feedback to students.	a) Teachers do not use assessments to inform instructional decision-making. b) Teachers do not use their action plans for grouping and adjusting their instruction, or they do not have action plans. c) Teachers do not use data to provide feedback to students, which makes the feedback inadequate.
